ETHERSTACK RECEIVES DIGITAL RADIO NETWORK EXPANSION ORDER

Etherstack plc, the specialist in wireless communications technologies, is pleased to announce that the Etherstack group has received an order for its equipment to be deployed on new sites for an existing P25 digital radio network deployed by the group in Australia.

The expansion order value is AUD \$422,000 (USD\$312,000) and is expected to be delivered, and recognised as revenue, in the current financial year. The order was placed by Etherstack's system integrator partner, BAI Communications.

David Deacon, Etherstack plc CEO, said: "During 2016 the company has continued to drive revenue growth through both new greenfield customers and our expanding installed user base. Substantial expansion orders demonstrate our customers' high satisfaction with our products as well as fundamental improvements in our long term recurring revenues".
